## **DETAILED ACTION**

### ***Response to Amendment***

1. This Office action is in response to the reply filed 04/09/2009. Claims 1-3 and 5-10 are pending in this application.

### ***Response to Arguments***

2. Applicant's arguments, see Remarks (pages 5-13), filed 04/09/2009, with respect to the rejections of claims 1-10 have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

## **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 7, line 2, the term "among" is replaced with "in".

### ***Allowable Subject Matter***

4. Claims 1-3 and 5-10 are allowed.

5. The following is an examiner's statement of reasons for allowance: The present claims are allowable over the closest prior art reference Mickols (US 5,755,964).

The independent claims 1 recites a preparation method of a polyamide thin film composite reverse osmosis membrane wherein said method involves a post-treatment step using an aqueous solution of a polyfunctional tertiary alcohol amine which comprises at least two tertiary amines having substituted alcohol group on the hydrocarbon side chains.

Mickols teaches a similar method but fails to teach the recited amine. The claimed amine is not found in any prior art references of record in such context that would allow a person of ordinary skill in the art to replace the simple amines taught by Mickols with such amine to arrive at the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
